Subject: Atlantic Coast Pipeline

I am writing to urge you to NOT grant the Atlantic Coast Pipeline its NC 401 Water Quality Certification.

The application for this massive, fracked natural gas pipeline proposed by Duke Energy and Dominion Resources is completely inadequate to protect NC's waters and people.

A re-evaluation of natural gas pipeline projects that take into account not only immediate need but also long-term need, "upstream" environmental effects in the fracking fields and "downstream" effects on greenhouse gas emissions must be required.

Thank you for your consideration.
